

# ▶ UPC Quick Joint 45

**Urethane Products Corporation engineers a wide range of polyurea coatings and joint fillers designed for high performance, fast application time, and durable coatings to last for years.**

## ▶ PRODUCT DESCRIPTION

**Quick Joint 45** is a self-leveling joint filler material designed for movement up to 15%. UPC joint fillers do not contain any fillers or non-reactive components.

**Quick Joint 45** is an excellent joint filler for new construction joints, crack repair, damage control joints and industrial facility maintenance.

**Quick Joint 45** is 100% solid, 2 component 1:1 ratio material with excellent elongation and strong physical properties.

## ▶ APPLICATION INFORMATION

**Quick Joint 45** must be applied using a plural component heated or non-heated dispensing machine with static mixer.

**Quick Joint 45** is a fast set joint filler with a 30 second gel time and a tack free time of 5 minutes. Trim time is between 30-40 minutes. Return to service time is as little as 3 hours.

**Quick Joint 45** meets California VOC regulations and is USDA Compliant. This odorless and zero vapor material is ideal in any environment.

## ▶ COVERAGE

UPC 8945 coverage rate is estimated with 1:1 ratio plural dispensing machine with 3/4 in opening.

Estimated Coverage Rate Per Linear Foot (One Gallon)  
1/4"x1/4"=308 ft. 1/2"x3/4"=51 ft. 1"x3/4"=26 ft.

## ▶ PHYSICAL PROPERTIES

Solid Content		100%
Hardness	ASTM D 2240	45-50 A
Tensile (psi)	ASTM D 412	1110
Elongation %	ASTM D 412	500-600
Tear strength	ASTM D 624	180
Abrasion (H18)	ASTM D 4060	850

## ▶ CHEMICAL RESISTANCE

Odorless

No Toxic Vapors

Return to Service in 3 Hours

USDA Compliant

Cures from 0 degrees to 160 degrees Fahrenheit
